

China Locations

Our China-wide operations are spread out in key industrial regions and cities where industries are concentrated. Our key administrative and control offices are located at:

Shenzhen: Where most electronics, plastics and electro-mechanical offices are located. Our office here is our China HQ with responsibilities for work in South China.

Shanghai: Which functions as our operational control center for work in North China. Our Shanghai offices manages customers demand for work in North China provinces of Jiangsu and Zhejiang.

Tianjin: Which has a wide operational coverage of Beijing, Upper North China Industrial zones.

Chongqing City: Which has operational teams spread out through mid-west industrial zones and similar cities.
